# CONSTRUCTION PROFESSIONALS

## building on your success

The construction industry is one of the fastest-growing sectors of the economy, and high-calibre technical, supervisory, commercial and managerial personnel are vital to the smooth-running and successful completion of any construction project or company. We recognise this and at NOW Recruitment, we specialise in putting you

in touch with the very best available construction professionals from a wide ranging variety of disciplines. In fact with every skill you need to keep your business at the forefront of this exciting sector. We're proud of a reputation that's second-to-none in the industry, and made us one of the UK's leading recruitment groups

**NOW Recruitment Construction Professionals; here's how we can help you build on your success:**

### ■ Can I be sure of a candidate's skills and experience?

We interview every potential candidate in-depth for experience, skills, qualifications, and personal circumstances. Not only this, we get another perspective by taking a minimum of two references from previous employers. It's an extensive process and you can be confident that not only will the candidate meet your requirements, he will have been fully briefed on the company, job role and responsibilities.

### ■ I need to speak to someone who understands my business

NOW's knowledge of the construction industry is second to none, and has been built-up since our inception in the early 90s. You can be sure that we are able to meet your needs.

### ■ What if I only need someone for a short, fixed term?

No problem. As well as providing you with permanent employees, we are able to provide specialist skills for the short term and at short notice. Our comprehensive database operates on a nationwide basis and is constantly updated.

### ■ I need to fill a wide range of posts at differing levels within my organisation.

NOW's database has details of thousands of construction professionals, whatever specialisms you require at whatever level. Our fully trained and experienced consultants are able to combine the use of this database with our extensive recruitment processes to ensure we can help you however large or diverse the need.

### ■ I have a vacancy of a particularly sensitive, confidential nature, can you help?

Yes. We have developed our search and selection process to give you discreet access to the right candidates, in complete confidence.

### ■ Appointments including:
