

**THE OPPORTUNITY:** McCall Mergers and Acquisitions is pleased to be representing an exciting business opportunity in INDIA; if your company has an appetite to expand operations overseas into this attractive emerging market then this opportunity could definitely be of interest.

**THE BACKGROUND:** The principles have good backgrounds in recruitment and are very well positioned to maximise contacts on the ground and also to shape a recruitment business - they have a track record of success in this area already. India's vast population totals over 1 billion and is rising by c2% pa; nearly 75% of this population would happily migrate and work in the towns instead of living in the villages if given the opportunity to do so...

**THE COSTINGS:** Funding at c£2m would secure the start-up of this significant business - both years 1 and 2.

**THE CONCEPT:** To create a private employment exchange of considerable magnitude and presence - a one stop recruitment shop targeted specifically at youth entering the marketplace - giving counsel, career advice, vocational training, skill up-grading and successfully placing the candidate into their first job.

**THE COVERAGE:** It is envisaged the sectors covered would encompass; Industrial, Catering, Domestic, Driving, Retail and some commercial. The research has been methodically executed - the principles know the sector - the opportunity is real.
